Investor Pitch Summary

AI-Powered Financial Intelligence for India's 20 Crore+ Retail Investors

Seed Round | ■1.5 Crore Ask | Django + Claude AI | 2026

Executive Summary

MarketPulse AI is India's first AI-powered financial intelligence platform giving 20 crore+ retail investors personalized news, sentiment analysis and portfolio impact insights — in Hinglish — at a fraction of Bloomberg's cost.

20Cr+	93%	■0	■1,100/mo
Demat accounts in India	F&O; retail traders losing (SEBI)	AI tools solving this in Hinglish	Full platform API cost at launch

The Problem

- **Information overload:** Hazaron news roz, koi personalized filter nahi
- **Emotional investing:** FOMO aur panic selling se retail investors average -5% underperform karte hain Nifty se (SEBI 2024)
- **Poor research access:** Bloomberg ■5L+/year, broker reports biased, influencers hype-driven
- **Time constraint:** 9-to-6 job wale investors real-time market monitor nahi kar sakte
- **No Hinglish AI:** Zero platforms exist giving Hindi-English data-backed analysis

Our Solution

- **Personalized AI news feed** — sirf woh news jo user ke portfolio ko affect kare
- **Claude AI sentiment engine** — Bullish/Bearish tagging + expected stock moves in Hinglish
- **FOMO alert system** — 3%+ market move pe AI context ke saath alert, not just a price ping
- **Portfolio risk analyzer** — concentration risk, stress test, rebalancing suggestions
- **Zerodha OAuth integration** — one-click portfolio import from broker
- **Tax intelligence** — real-time LTCG/STCG calculator + December harvesting alerts

Why Now

- Demat accounts **5x growth** in 4 years — 4Cr (2020) to 20Cr+ (2026)
- Claude AI now capable of **Hinglish reasoning** at scale — not possible before 2024
- **Angel Tax removed** (Budget 2024) — friendlier environment for early stage investment
- SEBI 2024 data: **93% F&O; retail losers** — massive validated pain point
- **No direct competitor** combining AI + Hinglish + portfolio-personalization exists today
